Cutting Rates.

St. Paul, 23.—Taking effect to day the rates from Chicago and common points thereto will be fifteen cents per one hundred pounds regardless of classification, to Winnebago City, Mankato, Sheldon, Sioux Falls and Sioux City, where the rates are subject to change without a notice signed by the freight agents of the Rock Island, Burlington Cedar Rapids, and Northern and Omaha lines. If the above is a truthful indication of the policy of the Omaha line, it looks as if a cut in west bound freight from Chicago is imminent. The former rates from Chicago to the above named points ranged from 35 cents to \$1.50 per hundred pounds. These cuts enable the lines mentioned to put in lines in the local territory of the Chicago, Milwaukee and St. Paul. Chicago, 23.—To-morrow the Rock Island road will announce a passage rate of 50 cents from Chicago to Rock Island, Davenport, Cedar Rapids and other leading points in Iowa, and \$1 to points beyond, thus inaugurating rates from Chicago west, as well as from western points to Chicago. It is rumored that the Milwaukee and St. Paul will, to-morrow, make a rate of 50 cents from Milwaukee to Moline, which is a step in the same direction.

Nail Industry.

Wheeling, 23.—The project for new steel works in this city for the manufacture of steel nail plate out of which steel nails will be made has been informally completed, to-day, by an organization of several nail mills into a company for this purpose.

Kansas Crop Report.

Topeka, Kansas, 23.—Reports from fifty towns, covering all the important wheat growing districts in Kansas, concerning the condition of winter wheat, estimates the fall seeding not to fall short of that of 1881. The dry weather in the early fall prevented sowing at the usual time, but the weather brought the crop up to a favorable average.

Railroad Talk.

New York, 23.—There is a story given out that Marvin Huggitt and Albert Keop, of the Northwestern, and Alex. Mitchell, of the Milwaukee and St. Paul railroads, this evening held a private conference with William H. Vanderbilt. They discussed some basis of agreement upon which a satisfactory settlement of the Northwestern railroad ever could be effected.
